

Make Washington Work for Middle-Class Families

AFNAmerica.com

Mission Statement:

Alliance for a New America believes that Washington is broken.

Special interests control our government while members of the middle class who work hard and play by the rules are left behind. We have to fix the problems in Washington first if we are going to strengthen the economy and make sure every American has quality health care.

We are encouraging voters to **ask the candidates** how they will make the middle class and working Americans their top priority in Washington, while ensuring that special interests and corporate America lose their stranglehold on our government.

Paid for by Alliance for a New America and not Authorized by Any Candidate
